Brand style guide

Harbour Super is a fictional, member-owned super fund created for demonstration. This guide sets out how the brand looks and sounds across the member website, emails and the embedded Pega Retirement Manager, so every screen feels like one product.

Stable. Confident. Brighter together.

01

Logo

The Safe Harbour logo combines a protective arc, a rising sun and two waves. Use the full logo wherever there is room, and the mark only where space is tight, such as app icons and favicons.

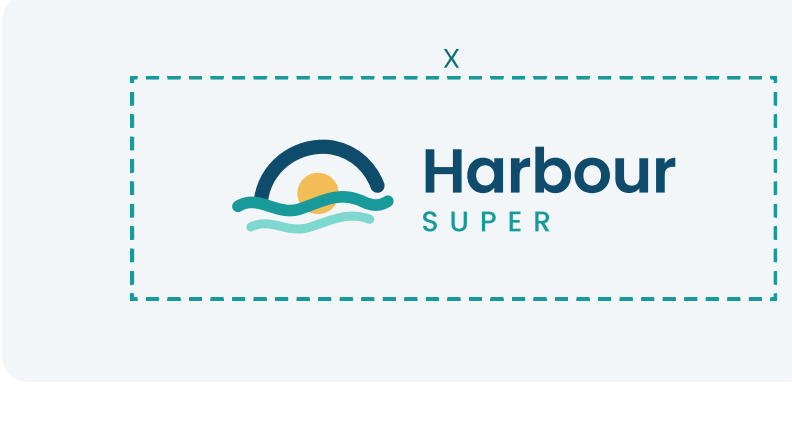
Primary
Default on white and light backgrounds.

Reverse
On navy, teal or dark photography.

Mark
Favicon, app icon and social avatar.

Clear space

Keep a margin of at least X around the logo, where X is the height of the word SUPER. Nothing else should sit inside this space.

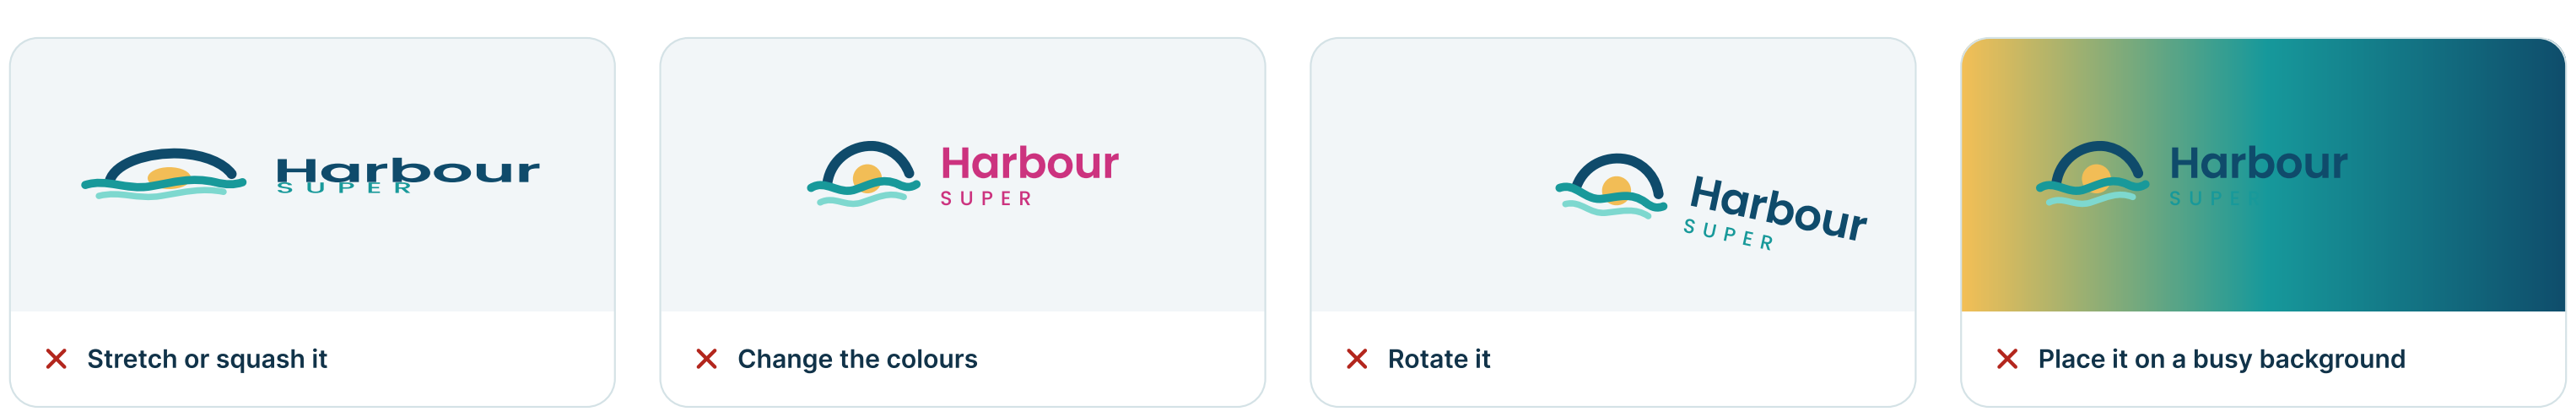


Minimum size

Full logo: at least 120px wide on screen (30mm in print). Mark: at least 24px. Below this, use the mark only.

120px 24px

Don't



- ✕ Stretch or squash it
- ✕ Change the colours
- ✕ Rotate it
- ✕ Place it on a busy background

02

04

Imagery

Our photography shows real, active people in their 60s and 70s, outdoors in natural light, often near the coast. It should feel warm and candid, never staged.

Do

- ✓ Real people aged 55 and over
- ✓ Natural daylight, outdoors and coastal settings
- ✓ Candid moments: walking, talking, laughing
- ✓ Space on one side for text, as in the hero

Avoid

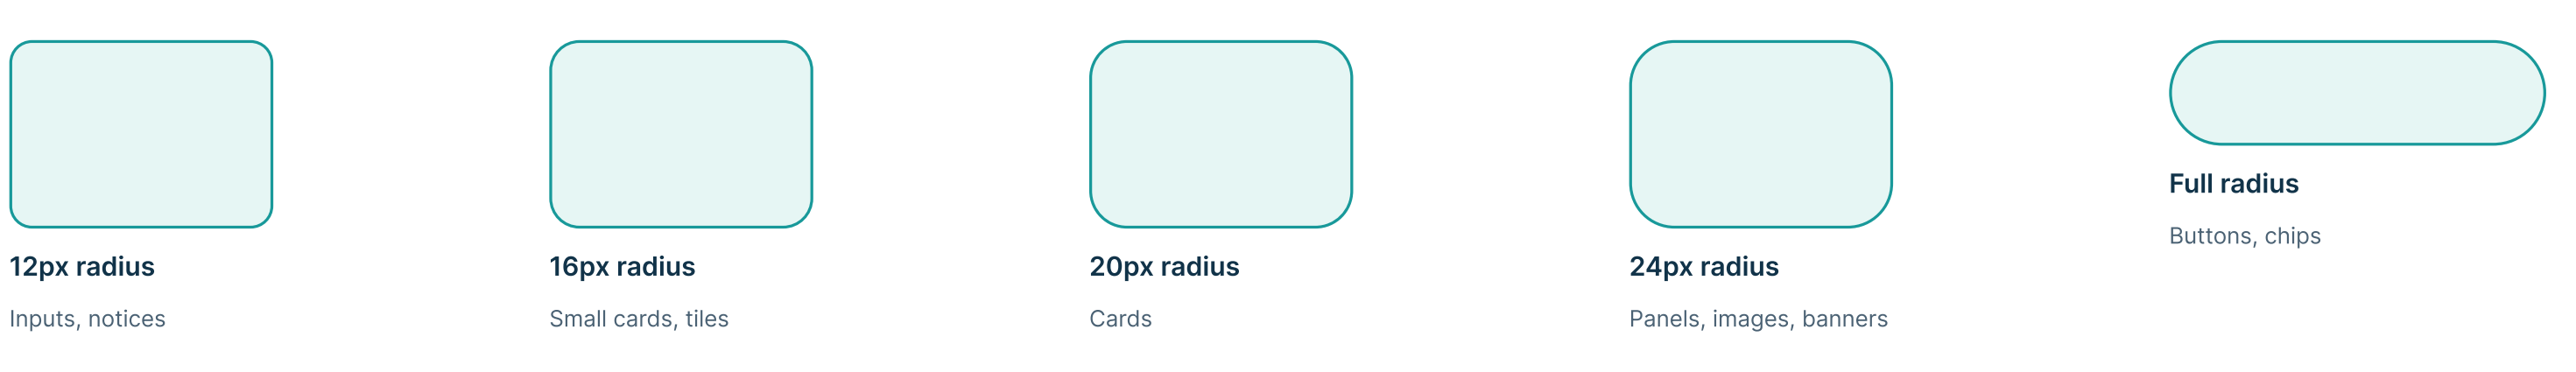
- ✕ Staged stock poses and studio backdrops
- ✕ Clichés such as cocktails on a beach or piles of cash
- ✕ Images that suggest guaranteed outcomes
- ✕ Heavy filters or colour casts that fight the palette

Photos in this demo are for demonstration only. Confirm the licence for every image before any client or public use.

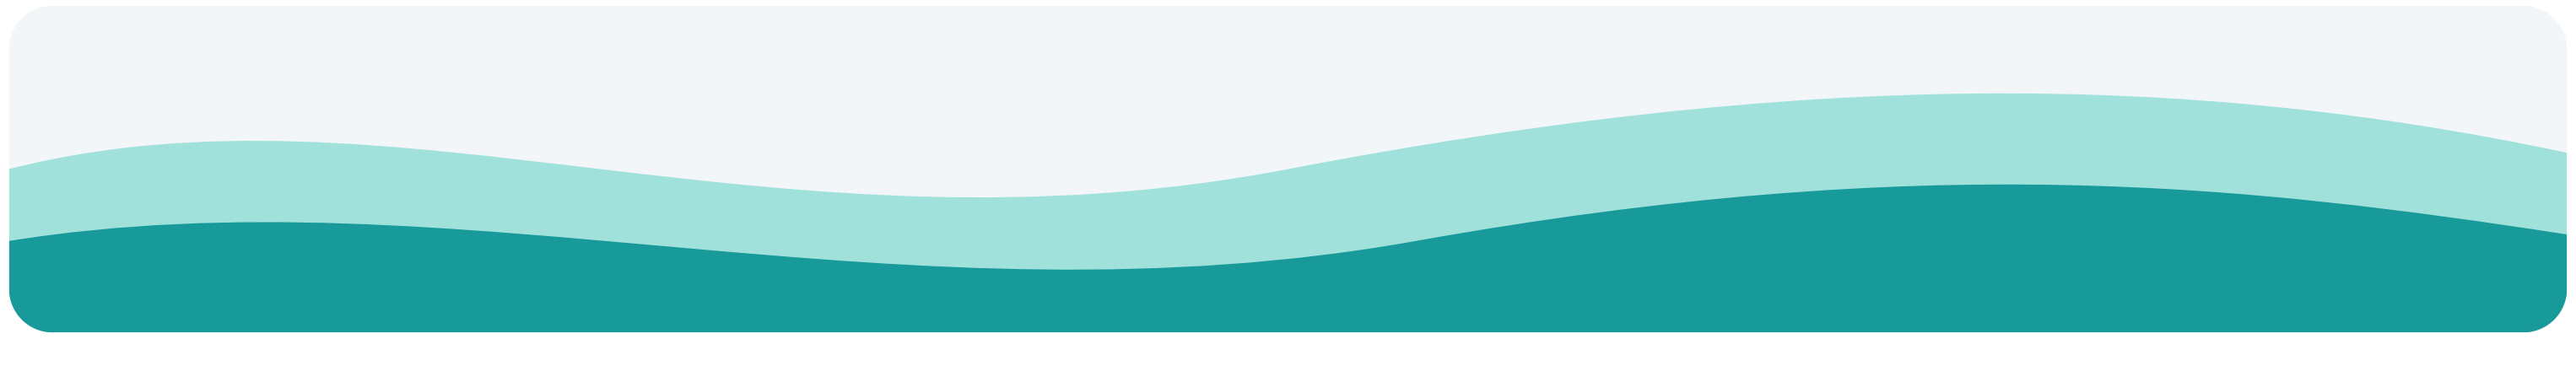
05

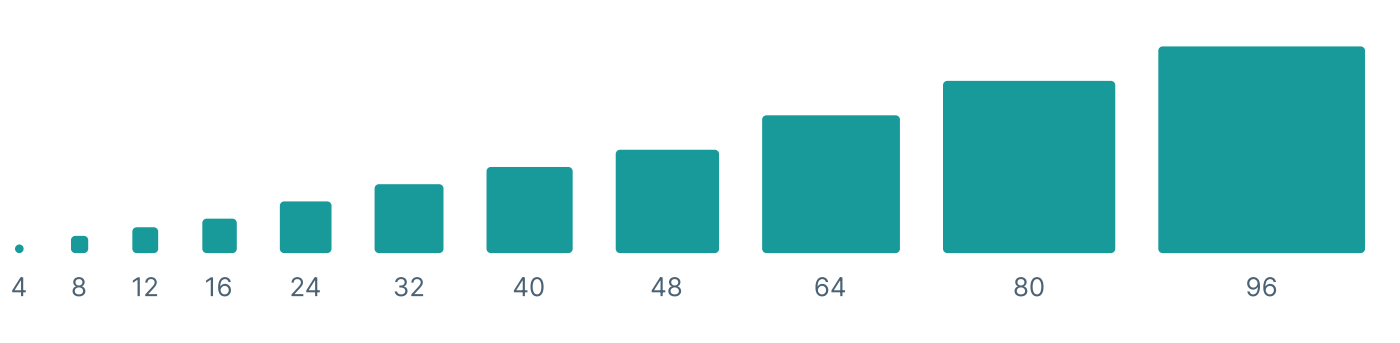
Shape and spacing

Soft, rounded shapes and the wave line come from the logo. Use them to frame content, not as decoration everywhere.



Radius	Use
12px radius	Inputs, notices
16px radius	Small cards, tiles
20px radius	Cards
24px radius	Panels, images, banners
Full radius	Buttons, chips





Spacing uses a 4px base. Page margins are 16px on mobile and 80px on desktop, with content up to 1280px wide.

06

Icons

Outline icons on a 24px grid with a 2px stroke and rounded ends. Icons support a label; they rarely stand alone. Icon-only buttons always have an accessible name.

menu	search	arrow-right	arrow-left	chevron-right	chevron-down	user	lock
eye	bell	home	bar-chart	shield	umbrella	file	leaf
compass	phone	calendar	merge	users	check	check-circle	info
alert	x	log-out	help	trending-up	wallet	sunrise	calculator
chat	play-circle	clipboard	badge-check	dollar	target	heart	plus

07

Buttons

One primary button per region. Sun (accent) is reserved for Retirement Manager so it always stands out. Buttons are at least 48px high on touch screens and stay enabled; errors show after selection.

Button	Name	Use
Continue →	**Primary**	Main action in a region
Continue →	**Secondary**	Supporting action
Retirement Manager →	**Accent**	Retirement Manager only
Continue →	**On dark**	Actions on navy or photos
Continue →	**Text**	Low-emphasis links

08

Voice and tone

We sound like a calm, knowledgeable guide. Plain words, short sentences, and facts rather than recommendations, because we give general information, not personal advice.

Clear
Use everyday words. Say "start your retirement income", not "commence an account-based pension".

Reassuring
Explain what happens next and how long it takes. Never rush or pressure.

Factual
Describe options and rules. Point to an adviser when someone wants a recommendation.
